

To store bulk data as train-test sets, using cloud based services will be a smart choice beside storing them in physical spaces (computer hard drives, portable memory drives).

Here is the list of some popular cloud service providers, their pricings and little notes:

Name		Costing and Space	Pros	Cons
Google Drive 15 GB free space (More on https://one.google.com/about/plans)	Basic	150 BDT/month 1600 BDT/year 100 GB	1. Seamless integration with Google services (docs, sheets), file sharing and access controlling 2. Free trial for 1 month 3. Up to 5 users 4. 30 days recovery	Data collection by Google is a privacy concern
